

If you have to drive through road works on a motorway:

- Slow down, check the signs, and get into the correct lane in good time;
- If there is no hard shoulder, watch ahead for broken down vehicles;
- Don't switch lanes;
- Concentrate on the road ahead, not the road works;
- Watch out for works traffic entering or leaving road works;
- Keep to the speed limit - normally 50 mph; and
- Keep a safe distance - there could be queues in front.
